

Application for BOO Constitutional Review Committee

As a Junior, I have been highly involved in BOO for the past 3 years and have not only attended almost every BOO event but have also helped plan several including the BOO/SEA To Be Green event and Manicure for a Cure. I think that this puts me in a position to understand the workings of BOO and the issues faced in editing the constitution.

I served as Co-Editor of the Torat Emet for 1.5 years where I learned a great deal about editing important documents which are seen by the whole community.

While I have never been on BOO Board, I have spent many hours discussing positives and negatives of the workings of BOO Board and the current version of the constitution. I feel familiar with the needs of the community as well as the board members who serve them. I hope to make the constitution more effective in helping both sides.

In reviewing the constitution in a timely manner, I hope to make it reflect the wonderful community we have at Brandeis while staying true to the values which are at the core of BOO. I am dedicated to creating the best possible constitution for our community.

Ronit Broekman
